

JOSÉ G. CARDOZO G.

FRONT END DEVELOPER JR.

ABOUT ME

I'm an electronics technician specializing in FTTH technology. I've been interested in programming for a long time and today I've decided to completely change my career path by dedicating myself to front-end development. I'm constantly acquiring knowledge that helps me grow in this world of web programming, learning technologies such as React, Firebase, HTML, CSS and Javascript.
